Objective

Aspiring data scientist with internship experience applying machine learning models, including Generative AI, and analyzing data. Proficient in Python, SQL, and Power BI, with a focus on creating insightful visualizations and solving real-world problems using AI technologies. Driven to enhance technical expertise and contribute to impactful, data-driven and AI-powered solutions.

Work Experience

Academic consultant - In association with KCG Gujarat

(January 2025 – Present)

- Conducting technical training on Python, AI, and hands-on machine learning.
- Teaching & mentoring faculty and non-technical students to build foundational and intermediate technical skills.
- Designing training content, practical exercises, and project-based learning modules.

Intern - Data Scientist

Deetsdigital | Ahmedabad, India (January 2025 – Present)

- Gaining hands-on experience in data analysis, preprocessing, and visualization using Python, SQL, and machine learning tools.
- Conducting exploratory data analysis (EDA) to extract insights and support data-driven decision-making.
- Collaborating on developing and optimizing machine learning models for real-world business applications.

Data Scientist Trainee

Fly The Nest | Ahmedabad, India (March 2024 – December 2024)

- Gained hands-on experience in data science concepts, including data wrangling, exploratory data analysis (EDA), and data visualization.
- Built and evaluated machine learning models for regression, classification, and clustering.
- Gained insights into working with Large Language Models (LLMs) in NLP tasks like text generation and summarization.
- Enhanced technical proficiency through practical projects and real-world problem-solving exercises.

Education

Bachelor of Technology in Computer Science Engineering

RKDF Institute of Science & Technology, Bhopal, India (September 2020 – August 2023)

Diploma in Computer Engineering

VPMP Polytechnic, Gandhinagar, India (July 2017 – August 2020)

Technical Skills

- **Data Analysis & Processing:** Python, SQL, Advanced Excel
- **Machine Learning:** Regression, Classification, Clustering, Decision Trees, Random Forest, XGBoost
- **Data Visualization:** Power BI, Tableau

Projects (Freelancing)

Generative AI Resume Builder

- Built a resume generator using OpenAI API and Streamlit that creates custom resumes based on user input.
- Implemented prompt engineering techniques and API integration to streamline job-specific resume creation.

Cancer Detection using Machine Learning

- Developed a cancer detection model using Random Forest (92% accuracy) and CNN (95% accuracy).
- Provided insights to assist healthcare professionals in early diagnosis and treatment planning.

Certifications

- Advanced Learning Algorithms – DeepLearning.AI (Mar 2025)
- Supervised Machine Learning: Regression and Classification – DeepLearning.AI (Feb 2025)
- Career Essentials in Business Analysis – Microsoft & LinkedIn (Aug 2024)
- What is Business Analysis? – LinkedIn (Jul 2024)

Soft Skills

Communication | Problem-Solving | Teamwork | Adaptability | Time Management

Activities

- Runner-Up, Cricket Tournament (B. Tech) – Demonstrated teamwork, leadership, and resilience under pressure.
- Winner, Volleyball Tournament (Diploma) – Contributed to a winning team through strategic play and strong collaboration.
